

## Heat transfer vinyl

PU heat transfer vinyl is a soft and eco-friendly polyurethane based material which is highly suited for the transfer of designs onto garments.

This is easy to cut and weed vinyl has high elasticity and strong adhesiveness, allowing fabrics to stretch through natural movement whilst maintaining excellent durability and the ability to withstand frequent washing.

PU heat transfer vinyl is the ideal solution for high quality, detailed designs and numbering for T-shirts, sportswear and other garments where durability is essential.
